CATTLE GENERALLY LOWER, THE DECLINE BEING ABOUT 10 CENTS.

Hogs in Fair Demand and Five Cents Lower-Sheep Steady to Strong-Condition of Other Markets.

UNION STOCKYARDS, INDIANAPOLIS, Feb. S.-Cattle-Receipts, 1,000; shipments, 3,000. Combined receipts of cattle for three days indicate a little improvement compared with the same time last week and a slight change compared with the corresponding time a year ago. The receipts to-day were a little larger than a week ago and a year ago. All kinds were represented, and there were about enough of each to establish a lattice and 250 12 and there were about enough of each to establish a range in prices. There were not many strictly fancy cattle in their class, but the quality was as satisfactory as the average recently. The market opened with a fair inquiry from practically all sources, and a few sales right at the start, especially in the steer line, were made at about steady prices compared with yesterday. It soon developed, however, that the competition would not be strong enough from outside sources, and naturally a weaker feeling took hold of the market. Subsequently, sales, which included practically all of the supply, indicated that all kinds of fat cattle sold on a basis of around 10c cattle, 12@13c, dressed weight; refrigerator beef, practically all of the supply, indicated that all that some of the bids represented even a greater decline than that. The fact that supplies have been equal to requirements for a few days is further reaction in values will not be at all surprising. About the usual clearance was finally made, at the decline in prices, but there were possibly a few more cattle left unsold than there weights. State hogs, \$7.30@7.40; no Westerns on sale. past few days, but there were probably more good heavy hogs here to-day than yesterday. The market opened with only a fair demand from outside sources and with lower prices reported in other places the bidding was naturally lower. Both buyers and sellers however. Both buyers and sellers, however, were inclined to be reasonable in their demands, and it did not take long to establish a trading basis. There-fore almost from the start the market was active, and local packers were rather free buyers at an average decline of fully 5c in prices compared with yesterday. Of course, there were probably some instances that prices appeared to be almost 10c lower, but as a rule salesmen claimed that a big 5c would cover the decline. Shippers, for some reason, were not as liberal buyers as usual, but a satisfactory clearance was made in good season and the last sales did not show any further quotable change in prices compared with the opening. The extreme range in sales was from \$6.75 to \$7.25, and the bulk of the supply sold at \$6.95@7.20. Quotations:

The quality was as good as yesterday, and with a continued good demand from shippers the market was reasonably active and steady prices were secured compared with yesterday. Horses—The Blair-Baker Horse Company received about 350 head of horses for their regular auction sale to-day, against 250 the same time last week and 500 the corresponding time a year ago. The consignments did not include many extra good horses in their class, but the quality generally was considered of very fair averthrough the subtreasury, combined with age and most of the different grades were represented. For the season of the year the attendbuyers was fair, but not large. were representatives here from Southrn, Eastern and New England States, and there was a fair demand for export and rather good inquiry from nearly all rural districts for farm horses. Altogether the demand was sufficiently large to create a reasonably active market, and sales that account \$3,339,000. There is some talk that this heavy drain on cash resources will be offset by a large contraction in the for the most part were at steady prices com-pared with those current last week. It is evi-dent, however, that there is very little margin existing between prices here and those paid in the country for the better class of horses, and therefore there is more or less complaint among shippers on account of small profits. A very large percentage of the horses coming to market now sell from \$100 to \$150 per head, but of course there are quite a number that sell below these takings of corn and London bought stocks slightly on balances. On the other hand, sterling at Paris reacted again. It was not

At the close to-day prices were 20c lower than on last Saturday, 10c of the decline having been noted to-day. The increased movement towards market was the cause—the demand not being able to keep up with it. Choice heavy hogs are worth \$7.15 @7.20, and all of the light grades are now selling under \$7. The market closed quiet and steady the decline. Quotations:

PRICES WERE FIRM AND FAIRLY STRONG AT THE CLOSE.

Wheat Unchanged, with Small Gains in Corn and Oats-Hog Products Show Moderate Advances.

CHICAGO, Feb. 25 .- Trading in the

grain pits was rather quiet to-day, and after an easier opening the close was firm, May wheat being unchanged, corn 1/4@3/40 higher and oats up 1/0%c. Provisions ruled strong, closing from 5@74c to 174c higher. Lower cables and favorable weather brought out considerable selling in wheat at the start, and a good many longs sold out, while commission houses had sales for short account. May opened 4c to 5c lower, at 76%@77c, but soon advanced on a good demand from commission houses said to be 77%c. A little weakness in other grains caused some selling by locals, and a reaction to 77c followed. Light offerings late in the day were the main cause for the fairly firm feeling which pervaded the pit at the close, and final figures on May were the may were the main cause for the fairly late made, 13%c. Bradstreet's report of the world's visible was a bearish influence. Clearances of wheat and flour were equal to 124,000 bushels. Primary receipts | Western, 15c at the mark; fresh Southwestern, 15c were 532,000 bushels, against 573,000 a year ago. Early weakness was on lower cables and in sympathy with the decline in wheat. Commission houses were the best buyers, and there was no pressure to sell, the limited offerings being quickly absorbed. Unsettled weather was a bull factor, as was the poor grading. The close was strong and 46% higher, at 48@48% for May, which ranged between 47% and 48% c. Receipts were 606 cars, none of contract grade. Early weakness in corn and wheat affected oats, and there was heavy selling by commission houses. Later, on the advance in other grains the market became firmer. which feeling was helped materially by the small receipts. The close was strong, with May 40%c higher, at 35%c, after selling between 34%@35c and 35%c. Receipts were

184 cars. Provisions opened steady in the face of lower prices for hogs at the yards, a fair demand from brokers being the supporting feature. The market was strong all day on good buying by packers, and the close was higher. May pork up 17½c, at \$17.72½; lard 5@7½c higher, at \$9.65, and ribs 10@1214c better, at \$9.7214@9.75. kets Are Light and Easy.

Prices Are Steady and in Produce

With the milder weather trade is taking mission merchants said yesterday that more business has been transacted on the street the last two or three days than in any similar period in the years he had been in business. Apples are moving briskly. There never has been a time in the history of the Indianapolis markets when there has been so many apples. Really choice apples have brought good prices, but inferior stock has been selling quite low, though the recent cold weather enabled the merchants to raise quotations somewhat. Irish potatoes have been in large supply. Onions, turnips, carrots and kindred articles are plentiful. Cabbage has been firmer the last few days, owing to an apparent scarcity. The produce market is very active. Eggs are moving well at prices quoted. Fresh eggs are coming in liberally and the stock of storage eggs has been considerably reduced. Cheese rules very firm, with stocks on hand light. Butter, if choice, is in good request. Elgin butter is 2 cents higher than three weeks ago. Poultry is very firm at quotations. Receipts are light by high prices. Dry goods houses report trade as taking on its old-time spring volume, and unless there is more cold weather a lively spring trade is anticipated. Milliners this week have had openings and are A. M. FLETCHER doing considerable business. Confectioners report trade as better than last month and are preparing for a big spring and summer business. Iron and steel markets are quite active. Prices have taken on a steady tone and no advances are now looked for. Retail stores are stocking up freely with hard-ware, being satisfied there will be no lower prices and if there are changes they wil be the other way. Grocers are having quite
